

Voiznet Softphone X-Lite Configuration

Please read the notes at the bottom of this document to ensure your account is equipped to handle a Softphone.

Voiznet's X-Lite is one of the most popular web phone programs available. Below you can find out how to link your Voiznet account to your computer so your Voiznet number can be used and follow you when you travel, in and out of the office, and virtually anywhere that you have internet.

To set up X-Lite with Voiznet please follow the steps and pictures below:

1. Begin your installation by downloading the Voiznet Softphone Client. This can be found at <http://www.voiznet.com/downloads/xlitev2.exe>.
2. Once downloaded find the file location on your computer and run it by double clicking on the icon.

If your computer prompts you with a security check as seen below press 'Run' to continue the installation.

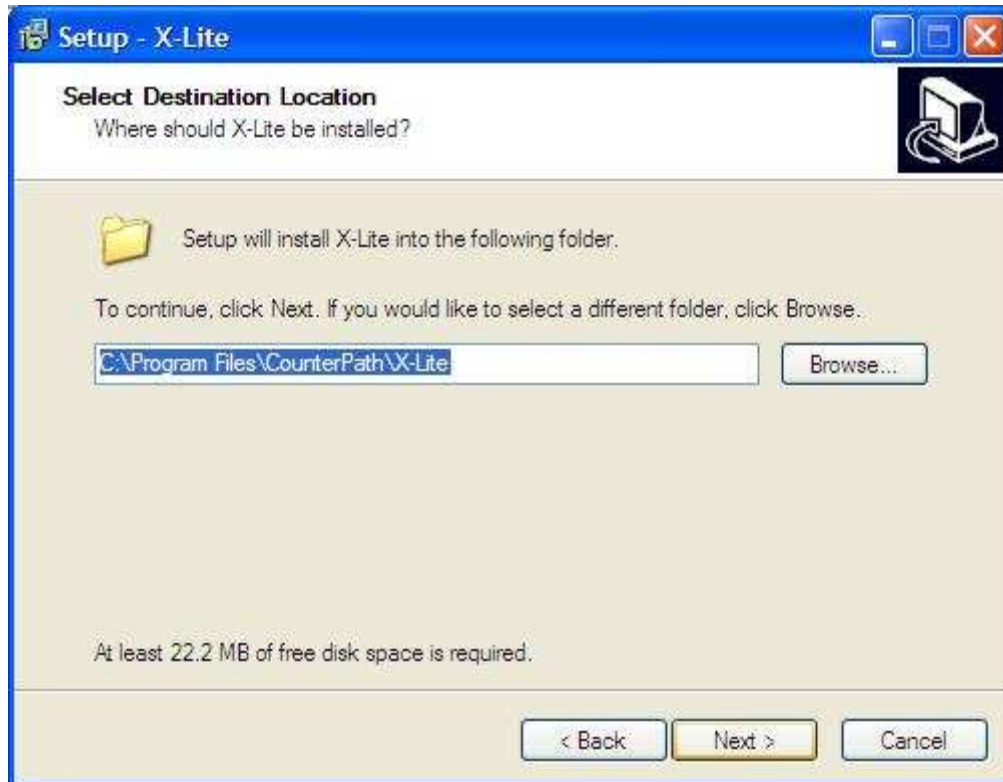

3. The installation should begin. At this time follow the installation through to the end with your own settings or the ones shown below.

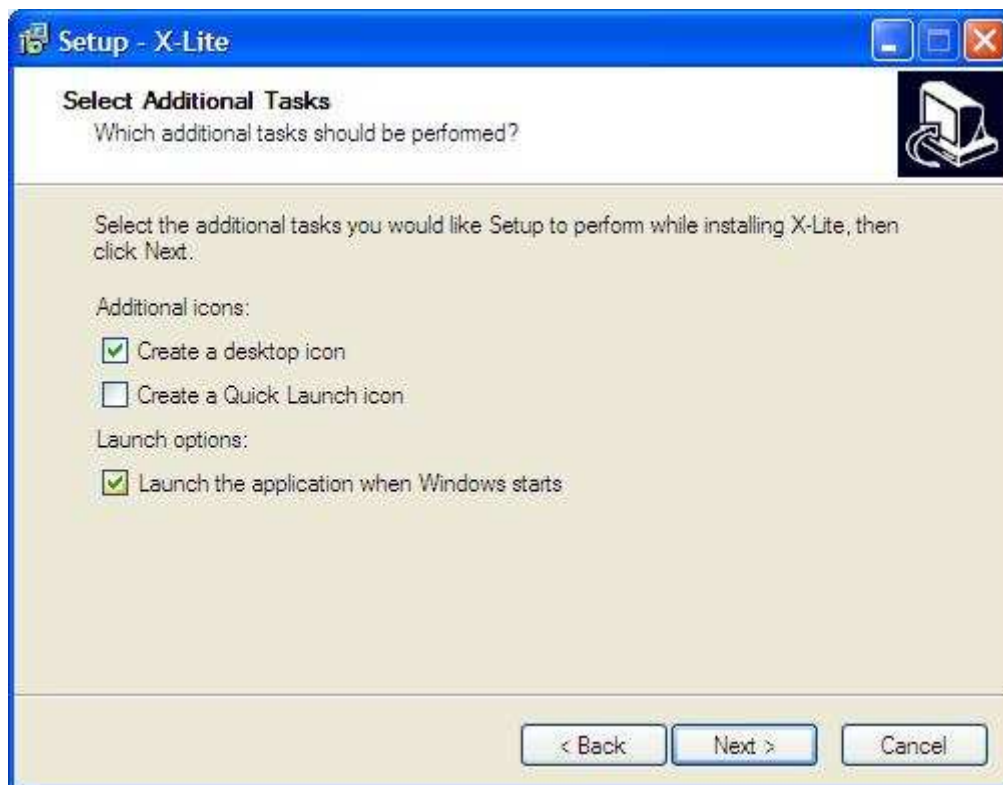

(Press 'Next' to continue)

(Fill in the '**I accept the agreement**' button and press 'Next'.)

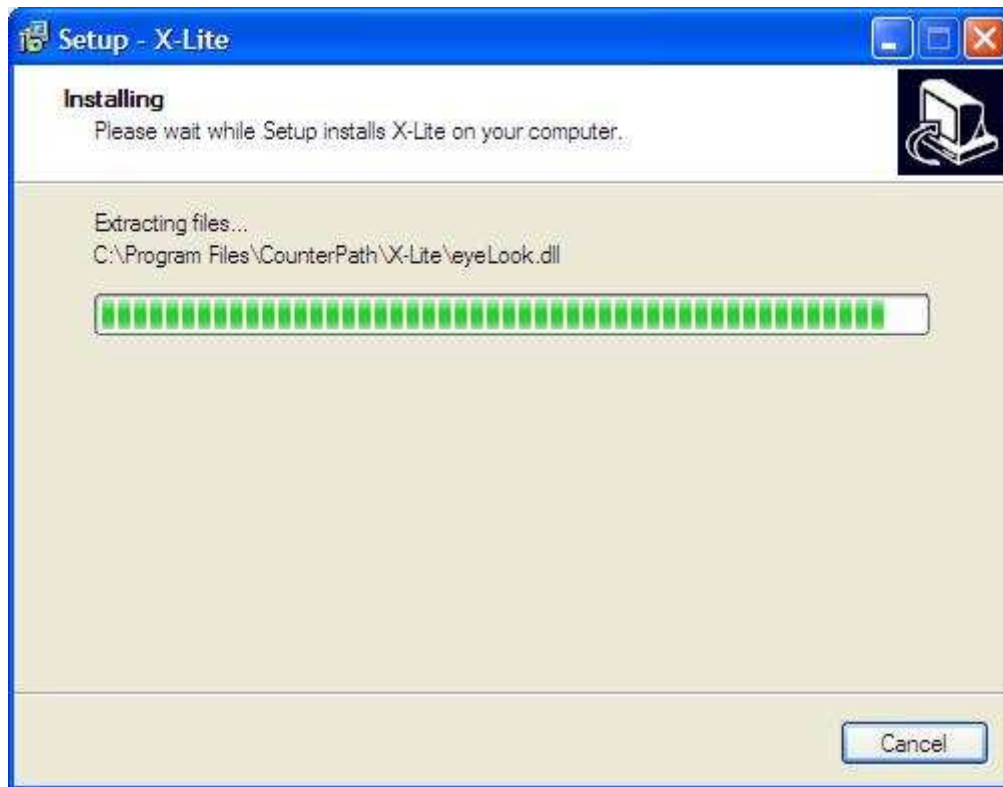

(Enter the path you would like to use for installation and press 'Next'.)

(If you would like the Softphone to start when windows starts up leave the "Launch the application when Windows starts" button checked)

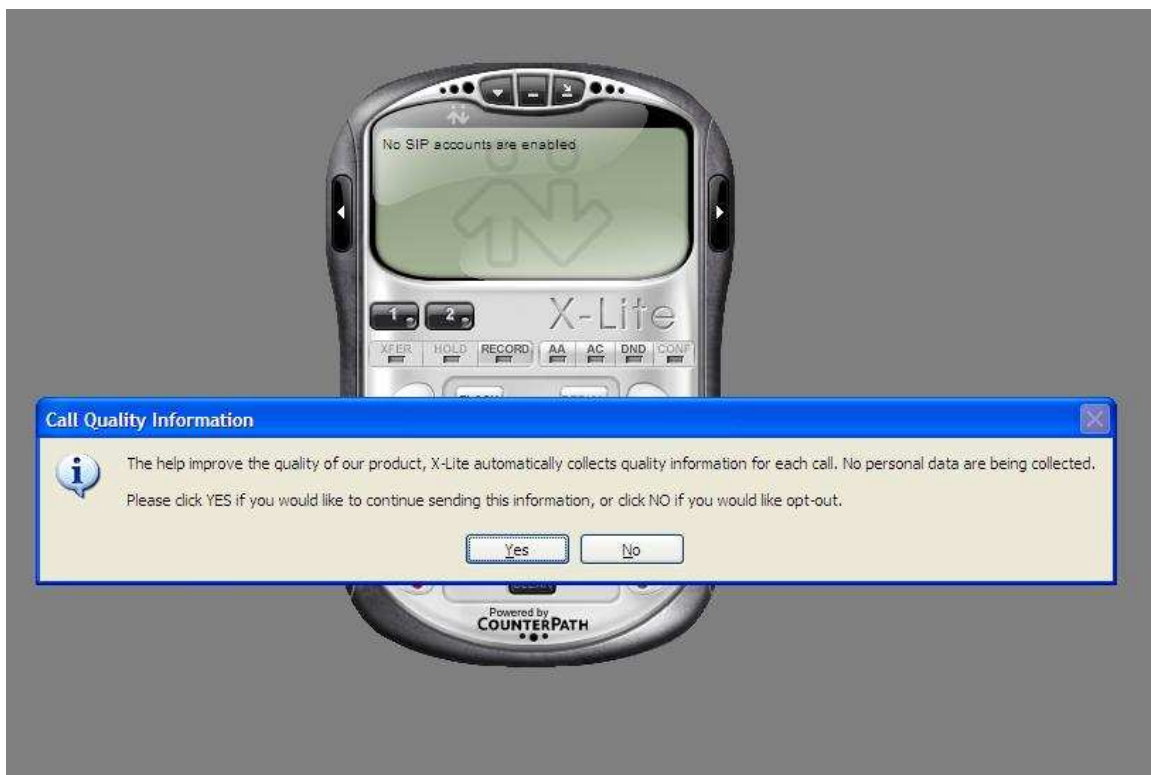

otherwise uncheck it to manually start it when needed. Continue by pressing 'next'.)

(The next screen will show the installation progress as seen above.)

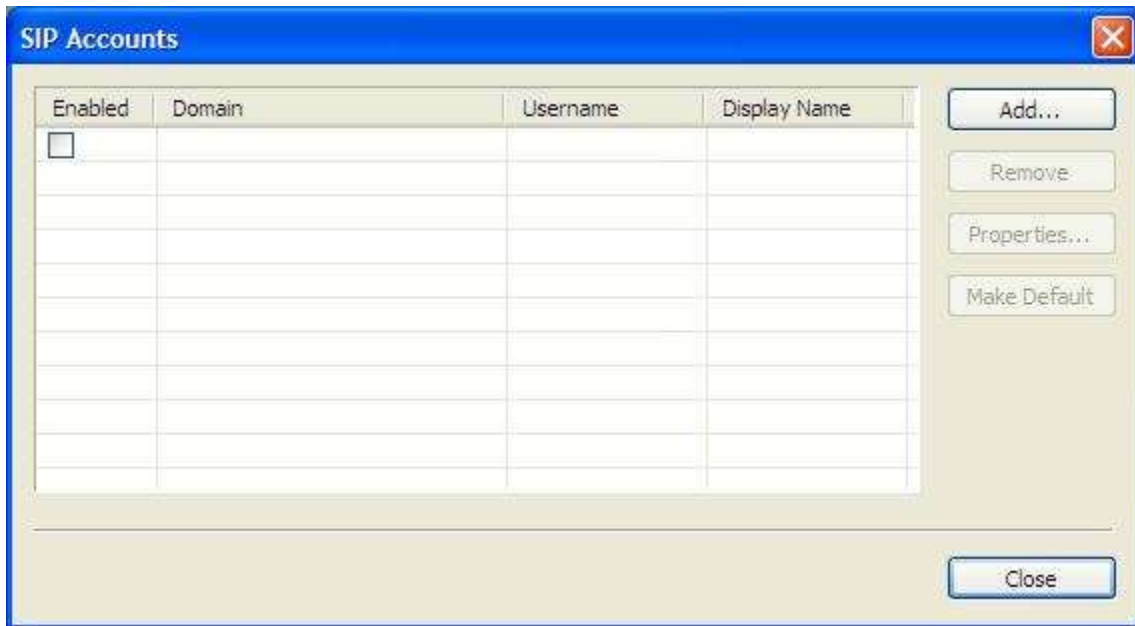

(When the installation is over it will prompt you. Click 'Finish'.)

(When you press 'Finish' the Softphone will launch as seen above. A shortcut will be placed on your desktop to launch it on demand. Read

the above disclaimer and choose if you would like to help gather information to better increase the service. If you are unsure press 'No'.)

(The above window will pop-up. Click the add button to continue to add your account.)

(Upon pressing 'Add' a window like the one above will appear. In the '**Display Name**' section enter what you would like the people you call to see on their text enabled caller id. Under '**Username**' enter your account username or phone number. In '**Password**' enter your pin number found in your online portal or your accounts page. Set the '**Domain**' to 'sipsilver.voiznet.com' 'sipgold.voiznet.com' or 'sipplatinum.voiznet.com' depending on what service you use.)

Your **password** or **pin** can be found in your Voiznet portal as seen and is 10 digits long.

The image shows a dialog box titled "Properties of Account1" with a close button (X) in the top right corner. The dialog has five tabs: "Account", "Voicemail", "Topology", "Presence", and "Advanced". The "Account" tab is selected. The "User Details" section contains the following fields:

- Display Name: Voiznet
- User name: 13056004803
- Password: [masked with 10 dots]
- Authorization user name: [empty]
- Domain: sip.voiznet.com

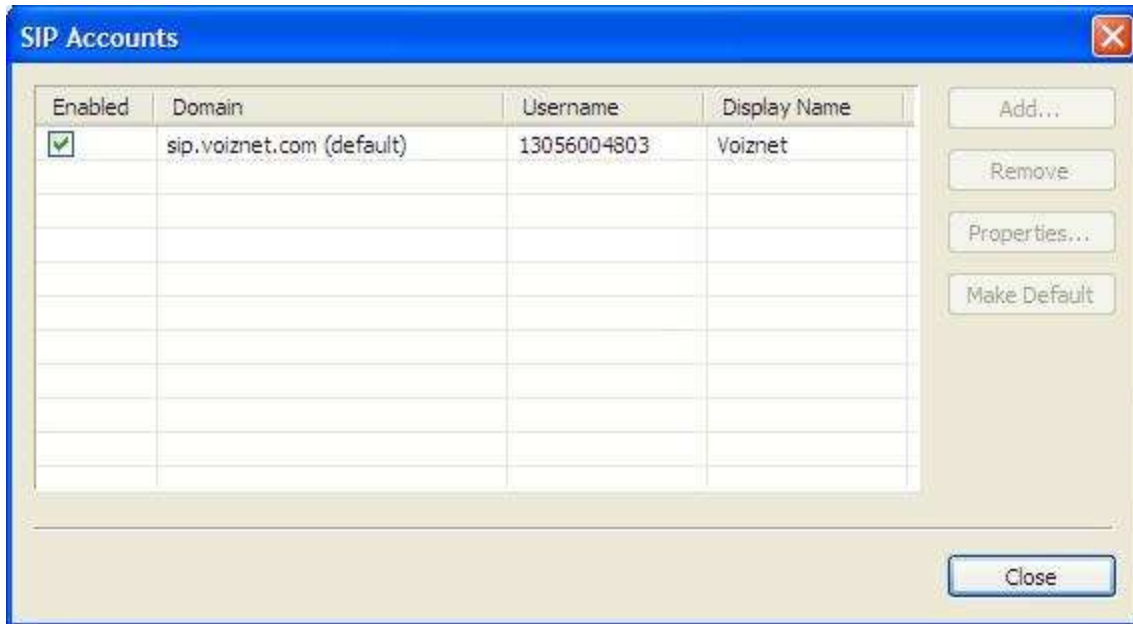

The "Domain Proxy" section contains the following options:

- Register with domain and receive incoming calls
- Send outbound via:
 - domain
 - proxy Address [empty]
 - target domain

The "Dialing plan" field contains the text: #1\|a\|a.T;match=1;prestrip=2;

At the bottom of the dialog are three buttons: "OK", "Cancel", and "Apply".

(Once you have added all your information to your account the window should look as following with the filled in information. Click 'OK'.)

(You should be brought back to the following panel once your account has been setup. Make sure the **'Enabled'** check box is selected and press **'Close'**.)

(If your account was setup successfully the screen should say **'Ready'** and your number should be displayed. If this is not so, please go to the

setup screen by right clicking the Softphone and selecting '**SIP Account Settings**' and check your account settings again.)

Notes:

- 1.)** If your Softphone is not operating on its own account (other than the one running on your Voiznet device) then only one device may register and be using the account at any time.
- 2.)** If you would like to use your Softphone while leaving your account at home active at the same time we recommend opening a new Voiznet account with a Plan or Pay-As-You-Go and a Incoming Number for receiving incoming calls. To do so please contact sales@arubawireless.com.
- 3.)** If you would like to have the functionality of a Softphone which your away from your house without opening up a new account ensure that you disconnect your Voiznet device (unplug it) prior to launching the Softphone. This way you can ensure that your Softphone registers and works correctly.
